- Engine overheating
- Blocked Cooling Pipes
- Air Conditioning not cooling

What it can be used on:

- A/C and Refrigeration cooling systems
- Engines saltwater circuit cooling systems
- Heat Exchangers
- Bow Thrusters
- Water Maker seawater cooling circuit
- Sea Strainers
- Thru-hull valves
- Piping

Benefits:

Advanced Marine Growth Removal Formula: BarnaClean features a cutting-edge formula specifically engineered to dissolve and eradicate tough marine growth, including barnacles, zebra mussels and more.

Easy to Use:

BarnaClean is a breeze! Its user-friendly design ensures hassle-free use, making it suitable for both professional marine maintenance crews and boat owners alike.

Improved Performance and Fuel Efficiency: By removing marine growth, BarnaClean helps restore your vessel's hydrodynamics, leading to enhanced performance and reduced fuel consumption.

Best Preventative:

Getting the best results with BarnaClean, for preventative and maintenance, the best practice is to do an engine flush once a year. This will prevent build up.

How to:

Seawater Cooling Systems –

1. Add BarnaClean solution.
2. Circulate solution with flushing unit for 2-8 hours (depending on amount of residue)
3. Flush system with fresh water.
